Message from the Centre's Faculty Placement In-charge

The Covid 19 times have been challenging as far as the placement process is concerned. But it has to be acknowledged that it has also opened up windows of opportunities as many recruiters are increasingly using the virtual route for the placement process. This has meant that students are getting more opportunities to sit for campus interviews held online. With distance ceasing to be an impediment, recruiters are also finding it easy to approach campuses at a distance which otherwise are time consuming to visit. On our part, we have been trying to keep up with the technical requirements of the recruiters and equipping our students with the necessary skills to use the various online platforms.

This is my fourth year as far as being at the helm is concerned and it has been an engaging experience as far as dealing with the recruiters are concerned. I again welcome all the recruiters to take in our students whose names appear in this placement brochure. The recruiters can rest assured that our students have been trained to be professionals and that they are capable of serving the recruiting organizations efficiently and effectively.
