

Girl's Hostels of Dibrugarh University observe World Environment Day-2022

On the occasion of World Environment Day, Joymati Chatri Niwas took initiative by providing bird feeding shelters in and around the campus and incorporating 'The Three Rs' with a marvelous innovation of recycling plastic bottles and remodeling them into a dustbin. These initiatives are small steps towards building a better future. The youth of this world have to take into hands the prevention of the environmental crisis of this current time. According to the warden Dr. Priyakshi These small steps, one at a time, if done with utmost dignity and respect towards our surroundings we will surely be in a better position to answer our next generation.

Parallely, Aideu Handique Chatri Nivas also observed World Environment Day. On this World Environment Day which has the theme of "ONLY ONE EARTH" for this year, the boarders of AHCN, along with their Warden Mrs. Bijitah Saikia, Matrons, and other staff members have today inaugurated their very own fruit garden on the AHCN campus and named it as "AIDEUR KANON", and planted various saplings. A total of 100 saplings such as Jamun, Mango, Chiku, Guava; Neem, and Tulsi for air purification and many ornamental flowering plants for beautification were also planted. it is hoped that planting trees can help in the reduction of carbon footprint, increase the greens, beautify the hostel campus, and also the boarders can enjoy the seasonal fruits someday.

To create awareness about the necessity of a clean and green environment, three Girls' Hostels in Dibrugarh University, Swarnalata Baruah Chatri Niwas, Nalinibala Devi Chatri Niwas, and Pushpalata Das Chatri Niwas, jointly observed World Environment Day today. In tune with the theme of the United Nations Environment Programme (UNEP) for the World Environment Day, the boarders of these hostels observed the day under the initiative of the Wardens Dr. Binita Pathak, Dr. Manashree Chetia, and Dr. Barnali Patwari.

The hostellers have taken a joint creative initiative to turn the wasteland behind the Hostel campus into a Fruit orchard, along with the development of organic compost pits. The initiative is aimed at creating a greener campus and producing organic compost for the orchard within the campus only, without having to depend on chemical fertilizers. The day started with the planting of saplings of various fruit trees by the Wardens, the boarders and the employees of the hostels. It was followed by the speeches delivered by the Wardens to create best practices for environmental protection and to contribute to a cleaner and greener environment.

World Environment Day is observed every year since 1972 led by the United Nations Environment Programme (UNEP) to create awareness and to describe the importance of Mother Earth. The theme for 2022 World Environment Day is #OnlyOneEarth which stresses climate action, nature action, and pollution action with encouragement for sustainable living.

An awareness program was also conducted by the boarders in the Sweeper Colony to inform about the importance of source segregation of the waste to turn the biodegradable waste into organic compost, and wastes like plastic and polythene to be sent to the waste collection sites.

Mamoni Roisom Goswami Chatri Nivas celebrated World Environment Day in the hostel campus in presence of warden Dr. Geetanjali Devi, other staff members and boarders. The day was flagged off by tree plantation in the campus by the warden along with the boarders. This day reflects the destruction happening to the world in a devastating way. For this, every boarder of MRGCN pledges to work together for a better planet Earth. The main purpose of celebrating this event was to make everyone aware of the consequences of increasing pollution, make smart choices to protect the environment and also from making unwise decisions. MRGCN family believe that we must take a single green step everyday for building a greener future both towards nature and life and also give importance on living sustainably in harmony with nature. Let's pledge to create green, healthy and breathable space. All in all the day was a great success, and has certainly made a difference to the way we view the environment.

Our environment is our everything! Stop polluting, start preserving!

MRGCIAN family wishes everyone a happening and energetic World Environment Day and encourages to make best contribution in society. “Let’s cooperate together to make this world a better place to live in”.
