

REPORT ON ONLINE TRAINING PROGRAMME

On 27th April, 2023, an online training session on Crop Land Inundation Assessment using Geo-Spatial Tools in Morigaon district of Assam flood modelling was conducted by the Centre for Studies in Geography. The session was attended by 4th semester disaster management students. The training session was held for a duration of one hour and was conducted by Bipul Saikia, Research Scholar, NESAC, Shillong, an expert in flood modelling.

The session concluded with a question-and-answer session where the participants had the opportunity to ask questions and clarify their doubts.

Overall, the training session was informative and well-structured. The content was presented in a clear and concise manner, and the participants were able to gain a better understanding of flood modelling. The case study presented was particularly useful as it demonstrated the practical application of flood modelling. Dr. Shukla Acharjee offered the vote of thanks.
